Subject: Re: RTS 14248: New Bedford Hbr ESD and AR

Hi Christopher - the URLs for the two documents posted on the NBH web site as discussed below are:

<http://epa.gov/ne/nbh/pdfs/299744.pdf>

and

<http://epa.gov/ne/nbh/pdfs/299753.pdf>

ALSO: I've just asked Rose Howell to place a third report on the web site, and dropped off the CD at her desk. This study (an air modeling effort) will also go into the AR. It looks like she's not in today, but I requested that it get posted by this Friday 6/18, which should give you enough time to get it into the AR by Th 6/24, no? If not, I guess the CD should go to you first. But I'd rather get it posted on the web ASAP so I can tell the PRP its available.

Thanks - Dave

Subject: RTS 14248: New Bedford Hbr ESD and AR

Dave,

The URL for the 2003 state report should be all we need.

Can you please provide URLs for the 2 documents on the New Bedford website? Yes, these documents should already be in SDMS, but I want to be 100% sure I'm identifying the correct document for the AR.

I'd be happy to take any further documents you have, if the copy you have is paper, that's what we'll take. You drop off the records at either the 1st or 7th floor service desks or put them in interoffice mail. Please provide a coding form and feel free to note the RTS # (RTS 14248).

Hi Christopher - I wanted to let you know we're shooting to have the ESD for the CAD cells completed by 6/24/10. As we've discussed I don't expect a ton of documents but will get them to you as soon as they become available. Speaking of which, one of them will be a 2003 state report which can be found on the web at <http://www.mass.gov/czm//dredgereports/2003/feirnb-f.htm>

Is this sufficient for you for this document or do you need anything else?

There are also two other reports that are posted on the NBH web site (Technical Documents, Lower Harbor CAD Cell) that will be in the AR. I believe you know about the first one (water quality monitoring) but not the more recent second one (water quality modeling). I assume these are sufficient for you since they go thru SDMS prior to being posted.

Last, I've got two one page documents that need to be added to the AR at this time, do you want these in hard copy??

Thanks - Dave
